Subject: Microsoft Settlement

Judge Kollar-Kotally,

As a concerned citizen, I urge you to reject the proposed settlement in the Microsoft suit before you.

Microsoft's power will not be limited one bit by this proposed final judgment,

and the company will be allowed to retain virtually all the profits it made

through its anti-trust violations. This solution does nothing to stop

Microsoft from continuing in its strong-arm tactics, and I ask you to vote against it.

Sincerely,

Doug Sauder
